DETAILED ACTION

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

CLAIM 10, beginning at line 18 now reads:

(viii) wherein the packaged drug is slidably disposed in said lower barrel and comprises a packaging containing a drug, said packaging comprising a two-piece housing having a channel running therethrough in which is disposed a drive pin or other element, a skin piercing means and the drug; said two-piece housing further comprising i) a region allowing the packaged drug to be slidably mounted to the drug delivery device at a receiving means; and ii) an end adapted to engage and tension the skin; and

(ix) a resilient means below or otherwise in association with the drive pin or other elements to ensure the drive pin is withdrawn after use.

The examiner notes that the above amendment, which involved merely switching the order of items viii and ix of claim 10, was done to provide antecedent basis in the claim for the term "the drive pin".

Art Unit: 3763

Allowable Subject Matter

2. Claims 10, 15, 20-25, 44, and 53-56 as presented in the response filed June 16, 2010 and in the Examiner's Amendment above are allowed over the prior art of record.

3. The following is an examiner's statement of reasons for allowance: The claims in this application have been allowed because the prior art of record fails to teach or disclose, either singly or in combination, the claimed device of a drug delivery device having various components or a packaged drug for use with a drug delivery device having various components.

4. The closest prior art of record is Lockhart (USPN 2,398,544) in view of Schluter et al (USPN 4,968,302), however, these references, singly or in combination, do not teach the device as claimed.

5. Regarding claim 10, the closest prior art of record fails to teach among all the limitations, in combination with the other claimed features, or render obvious a resilient means to ensure the drive pin is withdrawn after use.

6. Regarding claim 15, the closest prior art of record fails to teach among all the limitations, in combination with the other claimed features, or render obvious a spring having a spring follower.

7. Regarding claim 21, the closest prior art of record fails to teach among all the limitations, in combination with the other claimed features, or render obvious that the packaged drug and striker are mounted in such a way so that the device can be primed by pushing against the skin.

Art Unit: 3763

8. Regarding claim 22, the closest prior art of record fails to teach among all the limitations, in combination with the other claimed features, or render obvious that the sliding piston with an aperture therein and the device further comprises a slewing spring and a striker, wherein the drive is triggered by the piston which triggers the striker to move through the aperture.

9. Regarding claim 44, the closest prior art of record fails to teach among all the limitations, in combination with the other claimed features, or render obvious a resilient means to ensure the drive pin is withdrawn after use.

10. Regarding claim 53, the closest prior art of record fails to teach among all the limitations, in combination with the other claimed features, or render obvious a packaged drug having a drive pin comprising an elongate body and a plurality of flexible arms.

11. Regarding claim 56, the closest prior art of record fails to teach among all the limitations, in combination with the other claimed features, or render obvious the placement of a placebo within the packaged drug, behind the drug to be delivered.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
